For the sake of efficiency, you might want to see if Mike Nepstadt is available.

so much for the "firewall" I guess. Not that I understood that issue anyway.

Patti - I guess that means tomorrow or Monday?

Subject: BDCP EIS Alternatives

Karen, Mike - I was just at a BDCP meeting (Executive Committee) at which there was considerable discussion of the alternatives to include in the EIS/EIR. The lead agencies are scheduled to meet Tuesday of next week to try to come to closure on the alternatives, and the Executive Committee expects to hear about a "final decision" on alternatives when they next meet on May 19. (They think the decision is theirs – not the case even though they are paying for it.)

By this email, I am requesting that Patti brief you on where things stand and where they appear to be going. If you have any questions or concerns or want to add to or modify the alternatives in the DEIS, this is the time to bring those forward.

David
